

Fakultätsöffentliche Präsentationen an der Fakultät für Lebenswissenschaften

Termin: 17. Juni 2016, 12.00-17.00 Uhr

Ort: Seminarraum 2E 411, 1090 Wien, Althanstraße 14, UZA II

Präsentation (Uhrzeit)	DoktorandIn	Arbeitstitel	BetreuerIn	Dissertationsgebiet
12:00	Clara VAN HOEY	Development of a non-nucleoside inhibitor of enterovirus polymerases: Computer-aided design, synthesis and biological evaluation	Thierry LANGER	Pharmazie
12:30	Predrag KALABA	Synthesis, chemical and biological evaluation of novel atypical DAT inhibitors with two chiral centers for treatment of cognitive disorders	Thierry LANGER, Gert LUBEC	Pharmazie
13:00	Serena MONTICELLI	New Tools for Efficient Pharmaceutical Synthesis: Chiral Halogenated Carbenoids. Design and Applications	Thierry LANGER, Vittorio PACE	Pharmazie
13:30	Giovanna PARISI	New Perspectives in Organolithium Chemistry for Pharmaceutical Applications	Renzo LUISI, Vittorio PACE	Pharmazie
14:00	Marta RUI	Design and organolithium-methods based synthesis of Sigma receptor ligands	Simona COLLINA, Vittorio PACE	Pharmazie
14:30	Tarik BEČIĆ	The role of adipose tissue in cardio-metabolic disorders and relevant lifestyle and pharmacological interventions	Georg HOFFMANN, Christian STUDENIK	Pharmazie
15:00	Thomas GÖLS	Phytochemistry and potential wound healing properties of Norway spruce balm (<i>Picea abies</i>)	Sabine GLASL-TAZREITER, Elke HEISS	Pharmazie
15:30	Andrea GRUBER	Computational Prediction of Pharmacokinetic Parameters of New Investigational Antineoplastic and Antibacterial Drug Candidates	Martin CZEJKA	Pharmazie
16:00	Amra IBRIĆ	Design, synthesis and biological activity of new nitrogen heterocyclic compounds structurally related to natural products	Norbert HAIDER	Pharmazie
16:30	Carina KAMPLEITNER	Identifying the molecular and cellular pathways associated with bone fracture healing with and without biomaterials in healthy and osteoporotic bone	Oskar HOFFMANN	Pharmazie
17:00	Ende
